Experienced Creative Senior Producer skilled in managing diverse productions of exceptional quality for TV, OTT, all Social Platforms, Radio, Print and OOH while staying within budget and schedule. I have worked with high-profile celebrities, athletes, real people/talent, senior clients, cross-functional creative teams, and very well-respected directors and editors to consistently achieve content that the team is proud of. With over seventeen years of experience, I have a proven track record in creating smart, entertaining and award-winning content spanning from short social clips to longer-form documentaries.

I am best known for my collaborative nature, resourcefulness, creativity, positivity, organization, flexibility, and ambition. I foster strong relationships with premier production, editorial, and music vendors worldwide. Additionally, I am constantly seeking out new and undiscovered talent, expanding my network and, hopefully, contributing to the industry's growth.

Currently seeking opportunities with awesome teams who share a passion for producing exceptional work while fostering a kind and respectful working environment. Able to move to, just about, anywhere in the world.
